

1. **Admin Dashboard Review** (checking uploads)
 2. **Government Portal Cross-Check** (validating details)
-

Step 1: Document Upload by Driver

- Drivers upload required documents through the Drive App.
Required documents usually include:
 - Driving License (DL)
 - Vehicle Registration Certificate (RC)
 - Vehicle Insurance
 - Permit & Fitness Certificate
 - Aadhaar or PAN (Identity Proof)

Tools Needed:

- Your Drive Admin Panel (to see uploads).
 - File formats allowed: PDF, JPG, PNG.
 - Cloud/Server storage (Amazon S3, Firebase Storage, or even local server).
-

Step 2: Admin Dashboard Review

Admin logs into the **Drive Admin Panel** and:

1. Opens the driver profile.
2. Views uploaded files (DL, RC, Insurance, etc.).
3. Checks:
 - **Clarity:** Is the image sharp, readable, and complete?
 - **Authenticity signs:** Fonts look consistent, no Photoshop marks.
 - **Expiry dates:** Ensure DL, Insurance, Fitness Certificate are not expired.
 - **Matching name:** Name on DL should match ID proof.

Tools Used:

- Your Drive Admin Dashboard.
 - Image viewer (in-browser zoom-in or built-in preview).
 - Date calculator (to quickly check expiry).
-

Step 3: Govt Portal Cross-Verification

Now, cross-check numbers (DL, RC) against **official government portals**.

A. Driving License Verification

1. Go to **Sarathi Parivahan Portal**:
 <https://parivahan.gov.in/sarathiservice>
2. Select **Driving License Related Services** → **Know Your License Details**.
3. Enter:
 - DL Number (as shown in document).
 - Date of Birth.
 - Captcha.
4. The site will show:
 - Holder's Name
 - License Status (Valid/Suspended/Expired)
 - Issuing RTO
 - Vehicle class permitted
 - Expiry Date

☒ Compare these details with uploaded DL.

B. Vehicle Registration Certificate (RC) Verification

1. Go to **VAHAN Portal**:
 <https://vahan.parivahan.gov.in>
2. Select **Know Your Vehicle Details**.
3. Enter:
 - Vehicle Registration Number.
 - Captcha.
4. The site will show:
 - Owner Name
 - Vehicle Make & Model
 - Fuel Type
 - Registration Date
 - Validity of Registration
 - Insurance Status

☒ Match these with uploaded RC & Insurance.

C. Insurance Verification (Optional)

- Many insurers provide online verification of policies.

- Use the **Insurance Information Bureau (IIB)**:
 <https://iib.gov.in>
 - Or check directly with insurer's website by policy number.
-

D. Aadhaar / PAN Check (Identity Proof)

- Aadhaar: If QR is visible on card, scan using **mAadhaar app** or a free **QR code scanner**.
- PAN: Match Name & DOB with DL.

Tools Used:

- Government Portals (Sarathi, VAHAN).
 - Browser.
 - Free QR Scanner (mobile or Chrome extension).
-

Step 4: Approve / Reject in Dashboard

Once verification is done:

- ☒ If all details match → Click **Approve** in Admin Panel → Driver notified.
- ☒ If mismatch → Click **Reject** → Driver asked to re-upload.

Tools Needed:

- Admin Panel UI (Approve/Reject button).
 - Email/Push notification setup (to notify driver).
-

Step 5: Record Keeping

- Log who verified and when.
- Store status:
 - “Pending” → Waiting for review
 - “Approved (Manual)” → Successfully verified
 - “Rejected” → Needs re-upload
- Keep verification history for audits.

Tools Used:

- Database entry (MySQL, MongoDB).
 - Admin Panel logs.
-

B. Cross-Check with Official Sources pan card

1. Go to **Income Tax e-Filing Portal (PAN Verification)**:
 <https://www.incometax.gov.in/iec/foportal>
2. Steps:
 - Navigate to **PAN Verification**.
 - Enter:
 - PAN number
 - Name
 - DOB
 - Solve Captcha
3. System will confirm:
 - Whether PAN is **valid**
 - Name matches PAN

Compare **Name & DOB** on PAN with uploaded DL or Aadhaar.
